■ **30.5** ■ is a collision organism.

Fixed frame: 30.5 cm within 40 cm.

Palette: minimal.

Action: unlimited.

Each work emerges from a single law:
to collide with others, to collide with
oneself.

Rules of the game:

- To trace or to erase.
- To merge or to repel.
- To stagnate or to mutate.

Each piece infects the structure.

Each juxtaposition is a wound.

Each wound distorts the whole.

■ **30.5** ■ is a body without center, without
skin, without exit.

A field of pure instabilities.

An organic collapse.
