
Project Overview ■ 30.5 ■

■ **30.5** ■ is a collective contemporary art project based on simple constraints:

- A single square format of 30.5 cm.
- 40x40 cm frame.
- A deliberately limited palette.

From within this strict framework, a group of artists from France and beyond freely explore lines, rhythms, materials, and contrasts.

Each piece—whether a standalone or a multi-part composition—is unique, created on paper, with inventive freedom where the gesture remains playful within a precise structure.

With no imposed theme, no predefined narrative, ■ 30.5 ■ reveals the singularity of each approach.

The works take shape in varying configurations—grids, diptychs, triptychs—forming dense, vibrant, and evolving visual compositions.

The project invites the viewer to slow down, to perceive subtle shifts, inner forces, raw energy.

■ **30.5** ■ operates as a visual laboratory: a space of contrasts, silences, and surprises.

« ■ 30.5 ■ is an electronic music label applied to visual art :
strict framework, absolute expressive freedom. »
